

Need this EFSA claim*?

- Protection of DNA, proteins and lipids from **oxidative damage**
- Normal function of the **immune system**
- Normal **thyroid function**
- Normal **spermatogenesis**
- Maintenance of normal **hair**
- Maintenance of normal **nails**
- Maintenance of normal **skin**
- Normal **DNA synthesis** and **cell division**
- Maintenance of normal **bone**
- Normal **cognitive function**
- Normal **fertility** and **reproduction**
- Normal metabolism of **fatty acids**
- Normal **acid-base** metabolism
- Normal **Vitamin A** metabolism
- Maintenance of normal **vision**
- Normal **protein** synthesis
- Maintenance of normal serum **testosterone** concentrations
- Normal **macronutrient** metabolism
- Normal **carbohydrates** metabolism
- Maintenance of **connective tissues**
- Normal **energy-yielding** metabolism
- Normal function of the **nervous system**
- Normal **iron** transport
- Maintenance of normal **blood glucose** levels
- Normal **sulfur amino-acid** metabolism

Use our fortified yeasts **Lynside® Forte!**

	Se+ 2000 4,125 mg covers 15% EU RDA† for Selenium	Zn 100K 15 mg covers 15% EU RDA† for Zinc	Cu 50K 3 mg covers 15% EU RDA† for Copper	Cr 2000 3 mg covers 15% EU RDA† for Chromium	Mo 2000 3,75 mg covers 15% EU RDA† for Molybdenum
• Protection of DNA, proteins and lipids from oxidative damage	•	•	•		
• Normal function of the immune system	•	•	•		
• Normal thyroid function	•				
• Normal spermatogenesis	•				
• Maintenance of normal hair	•	•	•		
• Maintenance of normal nails	•	•			
• Maintenance of normal skin		•	•		
• Normal DNA synthesis and cell division		•			
• Maintenance of normal bone		•			
• Normal cognitive function		•			
• Normal fertility and reproduction		•
